A comparison of Bush's plans for Social Security vs. the existing system is now available. Simply enter your current income level and review what sort of benefits you can expect in the future from the existing system, and Bush's proposed privatization effort. The results are very interesting.

{mos\_sb\_discuss:8}\${mr\_ad}Not many people will accept the results of the social security calculator. Once you review the calculation method, you should not have any true objection as it does take into account all of the elements currently being debated.
